FIRE SAFETY

WHAT YOU SHOULD KNOW

Every day at least one child dies in a home fire. 

And every day, 293 children are injured by fire and burns.

90%  **Home fires account for nearly 90 percent of all fire-related fatalities.**

Working smoke alarms reduce the chance of dying in a home fire by half. 

77% of families have **not** developed and practiced a home fire escape plan, one of the most important components to surviving a home fire. 

 **Fire can spread rapidly through a home, leaving a family as little as two minutes to escape safely once the alarm sounds.**

HAVE WORKING SMOKE ALARMS.
PRACTICE AN ESCAPE PLAN.
